CLINICAL MANAGEMENT

Clinical Excellence

Respected clinician with a passion for improving the quality, visibility, and overall success of patient-focused healthcare systems. Distinguished career as an academic surgeon, with large experience in the management of Surgical Patients. Logbook and clinical experiences highlight a CV of a highly specialized surgeon with a strong background of general surgery and in deep knowledge of latest updates in surgery. Proven success managing the new technologies and using it to produce clinical innovation. International education and experience in Europe (clinical fellowship and former Consultant Surgeon for the Oxford Radcliffe Hospitals, U.K.) and North America (research fellowships Harvard and New York University).

Core competencies:

- ☐☐ Team Building & Leadership
- ☐☐ Clinical Services Governance & Planning
- ☐☐ Teaching undergraduate and postgraduate students
- ☐☐ Surgical Instructor

LEADERSHIP EXPERIENCE

**POLICLINICO TOR VERGATA (PTV)
UNIVERSITY HOSPITAL ROME, ITALY (2004 ongoing)**

Head of Minimally Invasive and GastroIntestinal Surgery, Department of Surgery (May 2018-ongoing)

Head of General Surgery, Department of Surgery (Nov 2016-April 2018)

GastroIntestinal Surgical Unit, Head of Service, Department of Surgery (Oct 2008 to Oct 2016)

Attending Surgeon, Department of Surgery (2004-2007)

Launched a program of *Gastro-Intestinal Surgery* whilst providing a full service of general surgery including treatment of emergencies of a tertiary referral centre.

Selected by Medical University of Rome "Tor Vergata" to be responsible for developing a Unit of Minimally Invasive Surgery and clinical excellence. Guide decisions, enhance programs and perform operations at a very high standard for a tertiary referral centre.

Selected accomplishments:

□□ Start-up of a program of Proficiency for **Laparoscopic Surgeries** and creation of an academic centre for training in laparoscopy (**Laparoscopic Training Centre Rome**)

□□ Creation of a referral Unit of Excellence for the management of the patient with **Gastro-Intestinal malignancies (esophagus, stomach, pancreas, colon and rectum)**.

□□ Launch a program of **laparoscopic Gastrectomy and minimally invasive hybrid esophagectomy** followed by publications in peer-reviewed journals

□□ Start-up of a referral centre for patients with **Cancer of the Rectum** and introduce a program of **ERAS in colorectal Surgery**.

□□ Launched the **Robotic Surgery program**, for complex abdominal procedure such as Morbid obesity and gastrointestinal inflammatory diseases and cancers.

□□ Implemented and managed a wide range of tertiary clinical services covering all aspects of patient care including **emergencies**. Coordinated several **first-time clinical procedures**.

LEADERSHIP EXPERIENCE

**OXFORD RADCLIFFE HOSPITALS (ORH),
OXFORD, U.K. 2000-2003**

UGI & HPB Consultant Surgeon (2003)

Responsibilities included provision of tertiary patient care, for both elective procedure and emergencies; teaching and lecturing medical students and surgeons in training; performing clinical research at the main teaching hospital for the Medical University of Oxford, UK.

Senior Clinical Fellow (2000-2002)

Supervised and coordinated medical personnel and operations for the UGI and HPB Surgical Units, a national and regional referral centres for the treatment of cancers of the upper gastro-intestinal tract, oesophagus, stomach, pancreas and liver. Lead daily operations and ensured the delivery of superior clinical care and training of residents.

Selected accomplishments:

- Creation of a program to shortening the waiting lists for selected operations such as cholecystectomy leading to the project "Day Surgery Cholecystectomy" ORH.
- Responsible of the organization of the Short Stay Unit (ORH).
